Form 990 - Organization's Mission or Most Significant Activities

The Organization's mission is to fulfill the unmet needs of individuals and families to build a healthier community. We ameliorate barriers to primary care by expanding medical care services to reach low-income individuals regardless of their ability to pay. We provide primary medical care, well child visits including immunizations, STD/HIV screening and treatment, and HIV prevention services to low-income individuals with a service delivery model that assures the integration of enabling services including case management, outreach, transportation, on-site pharmacy, and access to a continuum of care and special care services.

Section 340B is a US federal government program created in 1992 that requires drug manufacturers to provide outpatient drugs to eligible health care organizations and covered entities at significantly reduced prices. The intent of the program is to allow covered entities to stretch scarce federal resources as far as possible, reaching more eligible patients and providing more comprehensive services. Maintaining services and lowering medication costs for patients is consistent with the purpose of the program, which is named for the section authorizing it in the Public Health Service Act. In cases where the covered entity treats an insured patient with discounted medication, the federal government or the patient's private insurance routinely reimburses the entity for the full price of the medication, and the entity is able to retain the difference between the reduced price it pays for the drug and the full amount for which it is reimbursed.
